

インターナショナルセッション (International Session)

第3日 第8会場 (Room 8)
4月24日 (月), April 24 (Mon.) (231)

13:00~13:35

Session 1

Oncology (1) (IS-1~IS-5)

Moderator 1: Prof. Koji Kanazawa (University of Ryukyus)

Moderator 2: Prof. Sung Eun Namkoong (Catholic University Medical College)

IS-1. Seroreactivities to HPV-16 virus like particles (VLPs) using ELISA in the patients with cervical neoplasia

J.S. Park (Catholic University Medical College) et al.

IS-2. Immunologic diagnosis and monitoring of cervical cancers using *In Vitro* translated HPV proteins

Y.H. Chee (Catholic University Medical College) et al.

IS-3. *Coxiella burnetii* infection in cervical cancer patients

Y.T. Kim (Yonsei University College of Medicine)

IS-4. Cervical cancer screening: Ten-year experience at the Philippine General Hospital

C.L. Llave (University of the Philippines, Philippine General Hospital) et al.

IS-5. Cancer of the cervix associated with pregnancy-an experience of three decades

G.M. Limson (University of the Philippines, Philippine General Hospital) et al.

13:35~14:10

Session 2

Oncology (2) (IS-6~IS-10)

Moderator 1: Prof. Ryuichi Kudo (Sapporo Medical University)

Moderator 2: Prof. Genara A. Manuel Limson (University of the Philippines, Philippine General Hospital)

IS-6. Growth suppression of a cervical cancer cell line (TMCC-1) by human wild type p53 gene

P.S. Zheng (Saga Medical School) et al.

IS-7. Inverse expression of p16 and cyclin-dependent kinase 4 in endometrial carcinoma

T. Shiozawa (Shinshu University) et al.

IS-8. Sequential abnormality of sex steroid receptors, cyclins and tumor suppressor gene products expression in endometrial carcinoma

S. Ri (Shinshu University) et al.

IS-9. Receptor for 1,25-dihydroxyvitamine D₃ (VD₃) in endometrial cancer and the effect of VD₃ on endometrial carcinoma cell lines

H. Yabushita (Aichi Medical University) et al.

- IS-10. Hormonal regulations for c-erbB-2 and p53 oncogene expressions in human endometrial adenocarcinoma cells H. Hata (Kitasato University) et al.
14 : 10~14 : 45

Session 3**Oncology (3) (IS-11~IS-15)****Moderator 1 : Prof. Kenichi Tanaka (Niigata University)****Moderator 2 : Prof. Heung-Tae Noh (Chungnam National University Hospital)**

- IS-11. Analysis of oncosuppressor gene p53, Rb and CDK4 inhibitor gene (p16) in human ovarian carcinoma
J. Duenas (Asahikawa Medical College) et al.
- IS-12. Mutations and altered expression of p16^{INK4} in human cancer
A. Okamoto (The Jikei University School of Medicine) et al.
- IS-13. cDNA cloning of placental protein 5 (PP5), a serine proteinase inhibitor, and its mRNA expression in human ovarian cancer cell lines
E. Miyagi (Yokohama City University) et al.
- IS-14. Genetic progression model in ovarian cancer with comparative genomic hybridization (CGH)
H. Iwabuchi (University of California, San Francisco) et al.
- IS-15. Analysis of the cytotoxic interaction between cisplatin and hyperthermia in a human ovarian carcinoma cell line
E. Kimura (The Jikei University School of Medicine) et al.

14 : 45~15 : 20

Session 4**Oncology (4) (IS-16~IS-20)****Moderator 1 : Prof. Michiaki Yakushiji (Kurume University)****Moderator 2 : Prof. Seung Jo Kim (Catholic University Medical College Kangnam St. Mary's Hospital)**

- IS-16. The value of magnetic resonance imaging with endorectal surface coil in the staging of carcinoma of uterine cervix
C. Park (Cheil General Hospital) et al.
- IS-17. Intra-arterial cisplatin chemotherapy in uterine cervix cancer after selective internal iliac arteriography
H.T. Kim (Chungnam National University) et al.
- IS-18. 13-Cis-Retinoic acid plus interferon alpha-2a therapy for squamous cell carcinoma of the cervix
W.S. Ahn (Catholic University Medical College) et al.
- IS-19. Pelvic lymphadenectomy in clinical stage I endometrial cancer
E.J. Domingo (University of the Philippines, Philippine General Hospital) et al.
- IS-20. Clinicopathological study on pseudomyxoma peritonei
T. Sugiyama (Kurume University) et al.

15 : 20~15 : 48

Session 5**Others** (IS-21~IS-24)**Moderator 1 : Prof. Seiji Kawakami (Fujita Health University)****Moderator 2 : Prof. Min Hur (Chung-Ang University Yongsan Hospital)**IS-21. Comparison of 4 kits for measuring β -core fragment

A. Tanaka (Yale University) et al.

IS-22. Clinical analysis of 500 cases pelviscopic assisted vaginal hysterectomy

M. Hur (Chung-Ang University)

IS-23. CAUH experience with pelviscopic total hysterectomy (PTH)

D.H. Kim (Chung-Ang University)

IS-24. Cost-benefit analysis of laparoscopic adnexectomy in developing country

H. Tintara (Faculty of Medicine, Prince of Songkla University) et al.

第3日 第9会場 (Room 9)**4月24日 (月), April 24 (Mon.) (232・233)**

13 : 00~13 : 35

Session 6**Reproduction (1)** (IS-25~IS-29)**Moderator 1 : Prof. Masahiko Hiroi (Yamagata University)****Moderator 2 : Dr. Sung-Tack Oh (Chonnam University Medical School)**

IS-25. Platelet-activating factor acetylhydrolase activity in follicular fluid :

a prognostic marker for IVF-ET

Y. Tanaka (Oita Medical University) et al.

IS-26. Gene expressions of oxytocin and oxytocin receptor in cumulus/luteal cells

and the effect of oxytocin on embryogenesis in fertilized oocytes

K. Furuya (National Defence Medical College) et al.

IS-27. The effect of selective assisted hatching (sAHA) on pregnancy

rates in human IVF-ET

H.J. Lee (IVF Research Laboratory, Cheil General Hospital) et al.

IS-28. Gene expression of IGFBP-1 of mouse embryo, mouse endometrium

in coculture system

Y.K. Soong (Chang Gung Memorial Hospital) et al.

IS-29. Detection of GnRH mRNA in the human decidua

M. Ikeda (Yokohama City University) et al.

13 : 35~14 : 17

Session 7**Reproduction (2) (IS-30~IS-35)****Moderator 1 : Prof. Takeshi Aso (Tokyo Medical and Dental University)****Moderator 2 : Prof. Jau-Nan Lee (Kaohsiung Medical College)**

IS-30. Electrophysiological effects of noradrenaline on GnRH neurons

T. Uemura (Yokohama City University) et al.

IS-31. Specific binding sites for ¹²⁵I-Endothelin-1 in human

myometrium and leiomyomas

R. Ortégá Chávez (Nagasaki University) et al.

IS-32. Postoperative tubal patency and pregnancy rates after three

types of terminal salpingoneostomy under the operative laparoscopy

S-T. Oh (Chonnam University Medical School) et al.

IS-33. Effect of clonidine on pituitary hormones in women with

normal menstruation and secondary amenorrhea

K.C. Lin (Kaohsiung Medical College) et al.

IS-34. Cytologic localization of macrophages in the human ovary :

implications for steroidogenic role

C.L. Llave (University of the Philippines, Philippine General Hospital) et al.

IS-35. Image analysis of hysterosalpingogram using densitometric analyzer

K. Yoshida (University of Occupational and Environmental Health) et al.

14 : 17~14 : 59

Session 8**Perinatology (1) (IS-36~IS-41)****Moderator 1 : Assoc. Prof. Ikuko Moriyama (Nara Medical University)****Moderator 2 : Dr. Eun-Sung Kim (Cheil General Hospital)**

IS-36. Changes in urinary levels of metabolites of nitric oxide during pregnancy

S. Begum (Kobe University) et al.

IS-37. Gestational changes in nitric oxide synthase activity in the rat placentas

M. Thanda (Ehime University) et al.

IS-38. Ambulatory 24 hour blood pressure measurement for the management

of pregnancy-induced hypertension

M. Saga (Toyoko Hospital St. Marianna University) et al.

IS-39. Soluble form of plasma P-selectin (GMP-140) and Glycocalicin are

elevated in preeclampsia and eclampsia : their significance

A. Halim (Hamamatsu University School of Medicine) et al.

IS-40. Early detection of cervical incompetence by transvaginal

ultrasonography from the shape of cervix

B. Qureshi (University of the Ryukyus) et al.

IS-41. Route of delivery and apgar scores of the fetus in breech presentation

M.R. Festin (University of the Philippines, Philippine General Hospital) et al.

14 : 59~15 : 41

Session 9

Perinatology (2) (IS-42~IS-47)

Moderator 1 : Dr. Yoshihide Chiba (National Cardiovascular Center)

**Moderator 2 : Dr. Pong Rheem Jang (Hallym University School of
Medicine Kangdong Sacred Heart Hospital)**

- IS-42. Maternal thyroid function and fetal growth in the
endemic goiter area in Indonesia
S.K. Soejono (Faculty of Medicine, Gadjah Mada University) et al.
- IS-43. Diagnostic value of level II ultrasonography for fetal anomalies
E.S. Kim (Cheil General Hospital) et al.
- IS-44. A new predictor of perinatal outcomes : Noth index on uterine
artery doppler velocimetry JS. Cho (Yonsei University College of Medicine) et al.
- IS-45. Amniotic fluid composition changes following urine drainage and
tracheoesophageal occlusion in fetal sheep
P.R. Jang (Hallym University School of Medicine) et al.
- IS-46. Temporal profile of HSP72 and MAP2 immunoexpression in
newborn rat brain after hypoxia-ischemia A. Ohta (Miyazaki Medical College) et al.
- IS-47. MAP2 immunoreactivity in the hypoxic-ischemic rat brain :
comparison at 2 different postnatal ages
X.Y. Xia (Miyazaki Medical College) et al.
