

インターナショナルセッション (International Session)

第3日 4月12日(月), April 12 (Mon.)

第8会場 (Room 8) 「Room MAI」

13:00~13:40

Session 1

Oncology 1 (IS-1 ~ IS-5)

Moderator 1 : Dr. Shingo Fujii (Kyoto University, Japan)

Moderator 2 : Dr. Gabor N. Than (University Medical School of Pécs, Hungary)

IS-1. Molecular genetic analysis of cervical carcinoma

Xin Lu (Shinshu University, Japan) et al.

IS-2. Combined adjuvant radio-chemotherapy in patients with cervical carcinoma and a high risk of recurrence

J.U. Blohmer (Charite, Germany) et al.

IS-3. Comparison of conventional Pap smears and the ThinPrep Pap test for cervical cancer screening

HW Chung (Samsung Cheil Hospital, Korea) et al.

IS-4. Operative treatment of uterine cervical cancer in Hungary

G. N. Than (University Medical School of Pécs, Hungary) et al.

IS-5. Effects of EGF on chemosensitivity of cervical squamous carcinoma cells (CaSki) to cisplatin (DDP) and actinomycin-D (ACT-D)

Xinjian Peng (Kobe University School of Medicine, Japan) et al.

13:40~14:20

Session 2

Oncology 2 (IS-6 ~ IS-10)

Moderator 1 : Dr. Norio Wake (Kyushu University, Japan)

Moderator 2 : Dr. Hyung Moon (Hanyang University Hospital, Korea)

IS-6. Underexpression of p21^{waf1/cip1} and p27 in cervical carcinoma

Y. T. Kim (Yonsei University College of Medicine, Korea) et al.

IS-7. Serum levels of sTNF-RI decrease with disease progression in cervical cancer

S-C Huang (National Taiwan University Hospital, Taiwan) et al.

IS-8. Down-regulation of IL-2R α on activated tumor-infiltrating lymphocytes in human cervical carcinoma

B-C. Sheu (National Taiwan University Hospital, Taiwan) et al.

IS-9. The identification of genetic alteration in cervical cancer by comparative genomic hybridization (CGH)

Y. Kim (University of Ulsan, Asan Medical Center, Korea) et al.

IS-10. Antiproliferative mechanism of retinoid/interferon in cervical cancer cells: cooperative role of IRF-1 and p53

J. S. Park (Catholic University Medical College, Korea) et al.

14:20~15:00

Session 3

Oncology 3 (IS-11 ~ IS-15)

Moderator 1 : Dr. Hiroshi Kato (Yamaguchi University, Japan)

Moderator 2 : Dr. Joo-Hyun Nam (University of Ulsan, Asan Medical Center, Korea)

IS-11. High cyclooxygenase-2 expression in stage IB cervical cancer with lymph node metastasis or parametrial invasion

Hee-Sug Ryu (Ajou University, Korea) et al.

IS-12. Expression of epidermal growth factor receptor (EGFR) in cervical tissue and serum of patients with cervical neoplasia

S. Kim (Ewha Womans University, Korea) et al.

IS-13. The effect of epidermal growth factor (EGF) and transforming growth factor alpha (TGF- α) on cellular adhesions and the expression of E-cadherin and EGF receptor in cervical cancer cell lines

H.S. Moon (Ewha Womans University, Korea) et al.

IS-14. The correlation between the proliferation of cancer cells and the expression of annexin I

H.K. Jo (Saint Vincent Hospital, Korea) et al.

IS-15. Role of annexin-I in cervical cancer cell proliferation

Hyung-Gwon Cho (St. Vincent Hospital, Korea) et al.

15 : 00 ~ 15 : 48

Session 4

Oncology 4 (IS-16 ~ IS-21)

Moderator 1 : Dr. Masaki Inoue (Kanazawa University, Japan)

Moderator 2 : Dr. Jr. Jae-Wook Kim (Yonsei University College of Medicine, Korea)

IS-16. Inactivation of p73 protein by HPV E6 protein: novel p53-independent function of HPV E6

J. S. Park (Catholic University Medical College, Korea) et al.

IS-17. Detection of high risk type human papilloma viruses (16, 18) in tissues of cervical lesion using polymerase chain reaction in situ hybridization

S. E. Moon (Yonsei University College of Medicine, Korea) et al.

IS-18. Comparison of cytology, cervicography and human papillomavirus detection in cervical intraepithelial neoplasia and cervical cancer

Ho-sun Choi (Chonnam Medical School, Korea) et al.

IS-19. HPV DNA testing (hybrid capture) for diagnostic triage of minor grade cytological abnormalities

Chen H. S. (Mackay Memorial Hospital, Taiwan) et al.

IS-20. Growth inhibition of cervical cancer cells by adeno associate viral plasmid with liposome (pAAVCMVp53/lipofectin)

W. S. Ahn (Kamgnam St. Mary's Hospital, Korea) et al.

IS-21. Growth inhibitory effect of human cervical cancer cells with the direct transfer of liposome complexed recombinant pRcCMVp53

W. S. Ahn (Kamgnam St. Mary's Hospital, Korea) et al.

15 : 48 ~ 16 : 20

Session 5

Oncology 5 (IS-22 ~ IS-25)

Moderator 1 : Dr. Hiroyuki Yoshikawa (University of Tokyo, Japan)

Moderator 2 : Dr. Hyo-Pyo-Lee (Seoul National University Hospital, Korea)

IS-22. Diverse sequence variants of human papillomavirus type 16 E6 in primary cervical cancers from Korea

Jae-Weon Kim (Seoul National University, Korea) et al.

IS-23. Establishment of HPV18 URR-E6/E7 gene expressing transgenic mice for in vivo experiment of cervical cancer

Yongil Kwon (Korea Uijungbu St. Mary's Hospital, Korea) et al.

IS-24. High-risk HPV DNA as primary screening in old women

Cheng-Tao Lin (Chang Gung Memorial Hospital, Korea)

IS-25. Improvement of HPV detectable rate on cytological smears by PCR in situ hybridization

YH Xiao (Hirosaki University School of Medicine, Japan) et al.

16 : 20 ~ 17 : 00

Session 6

Others 1 (IS-26 ~ IS-30)

Moderator 1 : Dr. Yuji Murata (Osaka University, Japan)

Moderator 2 : Dr. Min Hur (Chung-Ang University, Yongsan Hospital, Korea)

IS-26. The outcomes of microsurgical tubal reanastomosis: a report of 536 cases

H. S. Moon (Moon Hwa Hospital, Korea) et al.

IS-27. Tubo-ovarian abscess in a woman with long-term tubal ligation: report of two cases

L. C. Lee (Taipei Municipal Women & Children's Hospital, Taiwan) et al.

IS-28. The amine test in the diagnosis of bacterial vaginosis

I. Medhat (Alexandria University, Egypt)

IS-29. Vulval elephantiasis—a case report

Pramila Pradhana (Nepal Medical College Teaching Hospital, Nepal)

IS-30. Changing trends in surgical approaches of the hysterectomy: vaginal hysterectomy

—The University of Hallym Hospital's experience in Korea (4659 cases)

S. W. Kang (University of Hallym, Korea) et al.

13 : 00 ~ 13 : 32

Session 7

Oncology 6 (IS-31 ~ IS-34)

Moderator 1 : Dr. Katsumi Tsukazaki (Keio University, Japan)

Moderator 2 : Dr. Jung-Eun Mok (University of Ulsan, Asan Medical Center, Korea)

IS-31. Giant leiomyoma of the uterus: report of a case and review of the literature

Roan C. H. (Taipei Municipal Women & Children Hospital, Taiwan) et al.

IS-32. Alternative gonadotropin-releasing hormone processing products secreted from endometrial carcinoma

Atsushi Takagi (Gifu University, Japan) et al.

IS-33. *PTEN* alterations in endometrial carcinoma and hyperplasia

Hongbo Sun (Osaka University Faculty of Medicine, Japan) et al.

IS-34. Expression of a functional endothelin (ET_A) receptor in human leiomyoma

Raúl Ortega Chávez (Nagasaki University School of Medicine, Japan) et al.

13 : 32 ~ 14 : 20

Session 8

Oncology 7 (IS-35 ~ IS-40)

Moderator 1 : Dr. Noriyuki Inaba (Dokkyo University, Japan)

Moderator 2 : Dr. Ray H. de los Reyes (Far Eastern University, Philippines)

IS-35. The use of color doppler velocimetry in the diagnosis of the nature of ovarian masses

Y. Khamis (Alexandria University, Egypt) et al.

IS-36. Comparison between frozen section and imprint cytology in the intraoperative diagnosis of ovarian malignancy

R. H. de los Reyes (Far Eastern University, Philippines) et al.

IS-37. Screening of ovarian cancer in Hong Kong

Alice Y. K. Wong (Kwong Wah Hospital, Hong Kong, China) et al.

IS-38. Correction of CDDP resistance in mismatch repair deficient cells by chromosome transfer

T. Sawai (Kinki University School of Medicine, Japan) et al.

IS-39. Increased expression of protease M in ovarian tumors

Hirotoshi Tanimoto (Asada General Hospital, Japan) et al.

IS-40. The matrix metalloprotease-7 (pump-1, matrilysin) overexpression in common epithelial tumors of the ovary

Kazushi Shigemasa (Hiroshima University, Japan) et al.

14 : 20 ~ 14 : 52

Session 9

Oncology 8 (IS-41 ~ IS-44)

Moderator 1 : Dr. Takashi Kawana (University of Tokyo, Japan)

Moderator 2 : Dr. Su-Cheng Huang (National Taiwan University Hospital, Taiwan)

IS-41. Hysterectomy for gestational trophoblastic disease, Teaching Hospital experiences

A. Rana (TU Teaching Hospital, Nepal) et al.

IS-42. Genetic origin of trophoblastic neoplasms

Shahib M. N. (Padjadjaran University, Indonesia) et al.

IS-43. Sequential diagnosis of tumours of the breast: a new concept following the principles of angiogenesis

G. Fleckenstein (University of Goettingen, Germany) et al.

IS-44. Paget's disease of the Vulva

R-S. Shyu (National Taiwan University Hospital, Taiwan) et al.

14 : 52 ~ 15 : 32

Session 10

Oncology 9 (IS-45 ~ IS-49)

Moderator 1 : Dr. Ryuichi Kudo (Sapporo Medical University, Japan)

Moderator 2 : Dr. Yik Ming Chan (Queen Mary Hospital, Hong Kong, China)

IS-45. Applications of telomerase assay in peritoneal ascites

—diagnostic significance in gynecologic malignancies

Tzn-huan Chen (Chang Gung Memorial Hospital, Taiwan) et al.

IS-46. Pathology review in gynecologic oncology: a selection criteria

- YM Chan (University of Hong Kong, Hong Kong, China) et al.
 ISL-47. Telomerase activity apoptosis and cell cycle analysis of gynecologic cancer cells treated with Taxol
 Toshihiko Izutsu (Iwate Medical University, Japan) et al.
 IS-48. Synchronous primary carcinomas of the endometrium and ovary
 K.-C. Lin (National Taiwan University Hospital, Taiwan) et al.
 IS-49. DNA gains and losses in primary ovarian carcinomas by comparative genomic hybridization
 —a preliminary report

Young Tae Kim (Korea University, Korea) et al.

15 : 32 ~ 16 : 12

Session 11

Others 2 (IS-50 ~ IS-54)

- Moderator 1 : Dr. Hiroshi Suginami (National Kyoto Hospital, Japan)
 Moderator 2 : Dr. Yong-Gyun Park (Korea University Hospital, Korea)
 IS-50. Comparison of laparoscopic myomectomy and laparotomic myomectomy
 Choi I. C. (YoungDong Jeil Hospital, Korea) et al.
 IS-51. A simple light-endorsed transvaginal section (LETS) technique facilitates laparoscopically
 assisted vaginal hysterectomy (LAVH)
 E. M. Tsai (Kaohsiung Medical College, Taiwan) et al.
 IS-52. Comparison of laparoscopic hysterectomy techniques: review of 1,300 operations
 Lee Y.T. (YoungDong Jeil Hospital, Korea) et al.
 IS-53. Our experience with pelviscopic classic intrafascial semm hysterectomy
 DH Kim (Chung-Ang University, Korea) et al.
 IS-54. Experience with 1000 laparoscopic hysterectomies
 PI. Lee (Samsung Cheil Hospital, Korea) et al.

第3日 4月12日 (月), April 12 (Mon.)

第12-1会場 (Room 12-1) 「Room REI」

13 : 00 ~ 13 : 32

Session 12

Perinatology 1 (IS-55 ~ IS-58)

- Moderator 1 : Dr. Tatsuhiko Kawarabayashi (Fukuoka University, Japan)
 Moderator 2 : Dr. G. Fleckenstein (University of Gottingen, Germany)
 IS-55. New contraction proteins in the ultrastructure of myometrium
 D. Labeit (University Hospital Mannheim and European Molecular Biology Laboratory Germany) et al.
 IS-56. Oral administration of PGE1 analogue in I.U.F.D.
 I. Medhat (Alexandria University, Egypt)
 IS-57. Effect of endothelin on the PAF acetylhydrolase secretion by human decidual macrophages
 Hisashi Narahara (Oita Medical University, Japan) et al.
 IS-58. Attenuation of vasoconstriction by estrogen through endothelium-independent mechanism in
 human uterine artery
 M. Hur (Chung-Ang University, Korea) et al.

13 : 32 ~ 14 : 12

Session 13

Perinatology 2 (IS-59 ~ IS-63)

- Moderator 1 : Dr. Tadashi Sagawa (Kyoto University, Japan)
 Moderator 2 : Dr. Y. X. Yan (The Second Affiliated Hospital of Nanjing Medicine University, China)
 IS-59. Discussion of retinopathy in pregnancy induced hypertension and clinic related factors
 Gao Yan (The Second Affiliated Hosp. of Nanjing Medical University, China) et al.
 IS-60. Change of lipid peroxides level and antioxidant system in maternal blood and
 the cord blood during pathologic pregnancy
 Yin Xiao Yan (The Second Affiliated Hosp. of Nanjing Medical University, China) et al.
 IS-61. Pregnancy increases C-type natriuretic peptide and its specific receptor, particulate guanylate
 cyclase-B levels in ovine uterine but not systemic arteries
 Hiroaki Itoh (Kyoto University, Japan) et al.

IS-62. Effective management of obstetric problems with Chinese traditional medicine

Zhi-Long Zhou (Xin Hua Hospital, China)

IS-63. Experimental animal model for preeclampsia by the infusion of nitric oxide synthase inhibitor and reverse of preeclampsia by high dose L-arginine

HG Lee (Saint Vincent Hospital, Korea) et al.

14 : 12 ~ 14 : 36

Session 14

Perinatology 3 (IS-64 ~ IS-66)

Moderator 1 : Dr. Isao Miyakawa (Oita University, Japan)

Moderator 2 : Dr. Soo-pyung Kim (Catholic University Medical College St. Mary's Hospital, Korea)

IS-64. The mRNA expression and production of vascular endothelial growth factor in amniotic cells .

Yasushi Kawano (Oita Medical University, Japan) et al.

IS-65. *In Vitro* growth and differentiation of human cytotrophoblast cells in peritoneal macrophage culture supernatant

Salma Khan (Kumamoto University School of Medicine, Japan) et al.

IS-66. Placenta derived leptin as important fetoplacental signal to regulate maternal energy metabolism

Y. K. Lim (University of Inha, Korea) et al.

14 : 36 ~ 15 : 00

Session 15

Perinatology 4 (IS-67 ~ IS-69)

Moderator 1 : Dr. Kunihiro Okamura (Tohoku University, Japan)

Moderator 2 : Dr. Ahn Kim (University of Ulsan, Asan Medical Center, Korea)

IS-67. A new method to determine a fractal dimension of nonstationary time-series data

Hideaki Shono (Saga Medical School , Japan) et al.

IS-68. Fetal acoustic stimulation test in the early intrapartum period as a predictor of perinatal outcome

A. Chittacharoen (Ramathibodi Hospital, Mahidol University, Thailand) et al.

IS-69. Nonlinear dynamic and chaotic analysis of fetal heart rate in fetal distress

JH Lee (Saint Vincent Hospital, Korea) et al.

15 : 00 ~ 15 : 32

Session 16

Perinatology 5 (IS-70 ~ IS-73)

Moderator 1 : Dr. Masao Nakabayashi (Tokyo Women's Medical College, Japan)

Moderator 2 : Dr. P. Brokerhoff (University of Frauenklinik Mainz, Germany)

IS-70. Colored microsphere technique to measure cerebral blood flow distribution in the newborn rats

Y. X. Xia (Miyazaki Medical College, Japan) et al.

IS-71. Renal, femoral, and middle cerebral arterial blood flow velocity waveforms and umbilical venous blood gases in intrauterine growth restriction fetuses

Y. H. Kim (Chonnam University Medical School, Korea) et al.

IS-72. Placental morphology and expression of vascular endothelial growth factor (VEGF) in placentae from preterm deliveries in correlation to doppler velocities

E. Steiner (University of Mainz, Germany) et al.

IS-73. Color doppler ultrasonography—a wide use in monitoring of fetal blood flow

X. Q. Zhang (Sun Yat-sen University of Medical Sciences, China) et al.

15 : 32 ~ 16 : 04

Session 17

Perinatology 6 (IS-74 ~ IS-77)

Moderator 1 : Dr. Nagayasu Toyoda (Mie University, Japan)

Moderator 2 : Dr. F.H.A. Guo (Yang-pu District Central Hospital, China)

IS-74. Mouse models for intrauterine growth retardation: segmental trisomy and monosomy 16 in the mouse

Haruhiko Sago (National Okura Hospital, Japan) et al.

IS-75. The serum levels of epithelial growth factor in the estimation of fetal maturation

M. Y. Gao (The Second Affiliated Hospital, Guang Zhou Medical College, China) et al.

IS-76. Relationships of various degrees of gestational glucose intolerance with maternal and fetal-neonatal complications

Hang Ai-Guo (Yang-pu District Central Hospital, China)

IS-77. Clinical experience with the use of ambroxol for the prevention of infant respiratory distress syndrome

J. Fernandez (St. Louis University Hospital of the Sacred Heart, Philippines)

16 : 04 ~ 16 : 44

Session 18

Perinatology 7 (IS-78 ~ IS-82)

Moderator 1 : Dr. Takashi Okai (Aikku Hospital, Japan)

Moderator 2 : Dr. P. L. Kuo (National Cheng-Kung University Hospital, Taiwan)

IS-78. An association between low unconjugated estriol in the mid-trimester and adverse pregnancy outcome

S. Y. Kim (Yonsei University, Korea) et al.

IS-79. Biochemical examinations of amniotic fluid in mid-trimester pregnancies with unexplained abnormal maternal serum double marker screening

A. Kim (University of Ulsan, Asan Medical Center, Korea)

IS-80. Prognostic factors in women with elevated second-trimester serum alpha-fetoprotein levels

PL Kuo (National Cheng-Kung University Medical Center, Taiwan) et al.

IS-81. Rapid prenatal detection of numerical chromosome disorders by quantitative fluorescence PCR: first clinical experience

B. Pertl (University of Graz, Austria) et al.

IS-82. Mutation at nucleotide 1108 of the fibroblast growth factor receptor 3 (FGFR3) in a case of thanatophoric dysplasia type I (TD1)

W. I. Park (Eulji Medical College, Korea) et al.

16 : 44 ~ 17 : 24

Session 19

Perinatology 8 (IS-83 ~ IS-87)

Moderator 1 : Dr. Katsuyuki Kinoshita (Saitama Medical Center, Japan)

Moderator 2 : Dr. R. Swarj (Nepal Society of Obstetrics and Gynecology, Nepal)

IS-83. Post abortion care services in Nepal

Raj Rajbhandari S. (Kathmandu Model Hospital, Nepal)

IS-84. Predicting success of external cephalic version by a scoring system—a prospective two phases study

W M Wong (Tsan Yuk Hospital, University of Hong Kong, Hong Kong China) et al.

IS-85. Complications of home delivery in admissions at the Maternity Hospital, Kathmandu

S. Sharma (Maternity Hospital, Nepal) et al.

IS-86. Is the neonatal outcome in caesarean breech better?

Rana A. (TU Teaching Hospital, Nepal) et al.

IS-87. A gestational age calculator program

HY Ahn (Saint Vincent Hospital, Korea) et al.

第3日 4月12日 (月), April 12 (Mon.)

第12-2会場 (Room 12-2) 「Room REI」

13 : 00 ~ 13 : 32

Session 20

Reproduction 1 (IS-88 ~ IS-91)

Moderator 1 : Dr. Minoru Irahara (Tokushima University, Japan)

Moderator 2 : Dr. Jong-Duk Kim (Chonbuk National University Medical School, Korea)

IS-88. Cumulative pregnancy rate and cycle outcome of 2000 consecutive ICSI treatments

I. S. Kang (Samsung Cheil Hospital, Korea) et al.

IS-89. Successful pregnancy in IVF-ET program by immature oocyte retrieval without ovarian stimulation

BR Do (YoungDong Jeil Hospital, Korea) et al.

IS-90. Biochemical assisted hatching (BAH) by pronase increased the pregnancy rate in human ART program

JE Lee (YoungDong Jeil Hospital, Korea) et al.

IS-91. High pregnancy rates after ICSI using sperm obtained from frozen-thawed testicular tissues

YJ Lim (YoungDong Jeil Hospital, Korea) et al.

13 : 32 ~ 14 : 12

Session 21

Reproduction 2 (IS-92 ~ IS-96)

Moderator 1 : Dr. Ryosuke Nakano (Wakayama Medical College, Japan)

Moderator 2 : Dr. Yu-Il Lee (Chonnam National University Hospital, Korea)

IS-92. Possible involvement of human granulosa cells inhibin/activin α -subunit mRNA in oocyte maturation and embryogenesis

Toshihiro Fujiwara (University of Tokyo, Japan) et al.

IS-93. Clinical usefulness of basal FSH as a prognostic factor in patients undergoing intracytoplasmic sperm injection

HD Chae (University of Ulsan, Asan Medical Center, Korea) et al.

IS-94. Prevention of recurrent abortion and delivery of normal baby from chromosome translocation carrier patient by preimplantation genetic diagnosis using fluorescence in-situ hybridization

SI Roh (YoungDong Jeil Hospital, Korea) et al.

IS-95. Application of cumulus cells as factors to predict the outcomes of in vitro fertilization and embryo transfer

Kyu-Sup Lee (Pusan National University, Korea) et al.

IS-96. The prognostic value of the serum FSH and estradiol level in IVF cycles treated with GnRH agonist

Joon Song (National Medical Center, Korea) et al.

14 : 12 ~ 14 : 44

Session 22**Reproduction 3 (IS-97 ~ IS-100)**

Moderator 1 : Dr. Takashi Hoshiai (Kinki University, Japan)

Moderator 2 : Dr. Mung Chen Ou (National Yang-Ming Medical University and Taipei Medical College, Taiwan)

IS-97. Comparison of total motile sperm counts from two consecutive day semen analyses in normospermic and oligospermic men

E. Co-Sy (Philippine General Hospital, Philippines) et al.

IS-98. The assessment of azospermic men: the incidence of sex chromosomal aberration and microdeletion in patients with non-obstructive azoospermia in Korea

K. R. Kim (YoungDong Jeil Hospital, Korea) et al.

IS-99. Implications of asymptomatic endocervical leukocytosis in infertility

M. C. Ou (National Yang-Ming Medical University and Taipei Medical College, Taiwan)

IS-100. Immunological study on intraperitoneal lymphocyte subpopulations by interleukin-6 in patient with endometriosis

T. Goto (National Defense Medical College, Japan) et al.

14 : 44 ~ 15 : 24

Session 23**Reproduction 4 (IS-101 ~ IS-105)**

Moderator 1 : Dr. Yukihiro Nagata (Kagoshima University, Japan)

Moderator 2 : Dr. Emad Darwish (Shatby Maternity Hospital, Egypt)

IS-101. Immunotherapy in unexplained recurrent spontaneous abortion

E. Darwish (Alexandria University, Egypt) et al.

IS-102. Hepatocyte growth factor (HGF) as a possible physiological regulator in human ovarian follicles

Yutaka Osuga (University of Tokyo, Japan) et al.

IS-103. Effects of naloxone on the gonadotropin level and the number of fos positive GnRH neurons in immature and mature female rats

Deqin He (Yokohama City University, Japan) et al.

IS-104. Clinical experience of CU-T380A IUCD inserted within 12 hours after abortion

M. Rocca (Alexandria University, Egypt) et al.

IS-105. Effect of medicult and human tubal fluid culture media and cumulus cell coculture on early mouse embryo development in vitro

Y-I Lee (Chonnam National University, Korea) et al.

15 : 24 ~ 16 : 04

Session 24**Reproduction 5 (IS-106 ~ IS-110)**

Moderator 1 : Dr. Yusuke Sagara (Kouchi University, Japan)

Moderator 2 : Dr. Peter Licht (University of Erlangen, Germany)

IS-106. Transcervical fallopian tube catheterization and recanalization for proximal tubal obstruction under simultaneous hysteroscopic and laparoscopic guidance

M. Kamel (Alexandria University, Egypt) et al.

IS-107. Intrauterine microdialysis —a novel approach for the clinical assessment of human endometrial function

P. Licht (University of Erlangen, Germany) et al.

IS-108. Hysteroscopic tubal catheterization for treatment of infertility with proximal tubal occlusion

Sung-Tack Oh (Chonnam University Medical School, Korea)

IS-109. The efficacy of measuring intercycle variability of FSH, LH, FSH and LH ratios and E₂ in predicting ovarian reserve in normal women age 40-45 years

You Kon Kim (Chonnam, Korea) et al.

IS-110. 3-Dimensional culture system of endometrial cells for studying the human implantation mechanism

Dong Jae Cho (Yonsei University College of Medicine, Korea) et al.

16 : 04 ~ 16 : 44

Session 25

Reproduction 6 (IS-111 ~ IS-115)

Moderator 1 : Dr. Masahiro Nozaki (Kyusyu University, Japan)

Moderator 2 : Dr. Uwe Lang (Justus-Liebig-Universität, Germany and University of Cincinnati, U.S.A)

IS-111. Effect of body mass index upon bone mineral density in Korean women

S. Oh (YoungDong Jeil Hospital, Korea) et al.

IS-112. Comparative cohort study between levonorgestrel (Norplant) and Depot Medroxy Progesterone Acetat (DMPA) with special reference to bleeding problems

Mochamad Anwar (Gadjah Mada University, Indonesia) et al.

IS-113. Impact of hormonal changes after natural menopause on the urodynamic studies in Egyptian women

Emad Darwish (Alexandria University, Egypt) et al.

IS-114. Estrogen-induced increases in coronary blood flow can be antagonized by inhibition of NO synthesis

U. Lang (Justus-Liebig-Universität, Germany and University of Cincinnati, U.S.A.) et al.

IS-115. Change of biochemical bone markers in pre- and postmenopausal women according to their menopausal period

B. M. Kang (University of Ulsan, Asan Medical Center, Korea) et al.
