

Technical Reports of
Japan Marine Science and Technology Center
(JAMSTECTR)

NO. 3

August 1979

CONTENTS

1. Consideration on the Rescue System for Undersea Vehicles Shinichi Takagawa, Sango Tokunaga, Mitsutoyo Okada	1
2. Dynamics of Underwater Falling Circular Cylinders Masao Nomoto, Hiroshi Hotta, Mutsuo Hattori	7
3. Scale Model Experiments for the Design of Free Fall Deep Sea Camera Systems Iwao Nakano, Masao Nomoto, Mutsuo Hattori, Kaoru Natori	16
4. A Self-Buoyant Free-Fall Deep Sea Camera System Using Submersible Glass Spheres Jun Hashimoto, Mutsuo Hattori, Kaoru Natori, Taro Aoki	24
5. Corrosion Tests of Manipulator Materials in Sea Water (Report III) Kaoru Natori, Jun Hashimoto, Hiroshi Hotta	29
6. A Deep-Sea Acoustic Transponder Navigation System., Its Performance Tests on Land and at Sea Toshiyuki Nakanishi, Hiroyasu Momma, Kiyoshi Otsuka, Toshio Tsuchiya Hiroshi Hotta	39
7. Experimental Study on Upwelling Kenichi Ohno, Yoshio Matsuda, Takeaki Miyazaki, Kenichi Takahashi Motonodu Ukita, Tatsunosuke Tsuzuku	50
8. Study of Continous Sampling Machine Yoshio Masuda, Takeaki Miyazaki, Kenichi Takahashi, Hiromichi Yokomizo Tatsunosuke Tsuzuku	58
9. The Basic Study for the Valveless Airturbin Wave Power Generator System Yoshio Masuda, Hiromichi Yokomizo	62
10. 2 Valve-System and 4 Valve-System Comparison Test for Wave Power Generator Yoshio Masuda, Takeaki Miyazaki, Yoshiki Hagihara, Koichi Nakanishi, Kenichi Takahashi, Hiromichi Yokomizo, Tatsunosuke Tuzuku	71
11. Study of Wave Power Generator "KAIMEI" Yoshio Masuda, Takeaki Miyazaki	75
12. Study of the Tidel Current Power Water Mill Yoshio Masuda, Kenichi Takahashi	82
13. A Note on the Time Constant Measurement of the Temperature Sensor Toshiaki Hara, Yoshito Tsuji, Hiroshi Satake	89
14. Multivariate Analysis of Marine Sediment Characteristics Yoshito Tsuji, Tomio Emura	94
15. Study of the Remote Sensing for Oceamic Application., The Image Processing Facility Prepared in this Project Tomio Emura, Kei Mumeyama, Yasunori Sakaki, Takayoshi Toyota Toshimitsu Nakashima	104

16. On the Method of Determining the Optical Constants of Seawater and the Sea-Bottom by Reflectance Measurement (Report II)	
Yasunori Sasaki, Kei Mumeyama, Tomio Emura	110
17. Report on the Fertility of the Sea by Utilizing Deep Seawater	
Toshimitsu Nakashima, Takayoshi Toyota	117
18. Factors Influencing the Forel and Ule's Color Cord and Transparency	
Takayoshi Toyota, Toshimitsu Nakashima	126
19. Development of a New Type Diving Helmet	
Kazunori Tomiyasu, Shigeo Aoyagi, Tohru Murai	134
20. Underwater Surveys of Artificial Reefs	
Mineo Okamoto, Tohru Murai	142
21. Strength Analysis and Temperature Control Response Analysis for Development of a Hyperbaric Facility for Animal Research	
Shuji Kanda, Mikio Ikeda, Akira Okubo, Kunihiro Seki, Tomohiro Sando, Hideaki Nakayama, Shigenobu Komatsu	150
22. Sleep Cycles for men in 21 ATA He-O ₂ Environment	
Kunihiro Seki, Hideaki Nakayama	160

Summary of Commissioned Research Reports

1. Study and Development of Deep Submergence Research Vehicles.	169
2. Research and Development of Diving Technology.	170
3. Development of a Hyperbaric Facility for Animal Research.	171
