**Papers**

The measurement of the A-weighted sound pressure levels in the MRI diagnosis room	Kenji Muto Kazuo Yagi	5
A study on auditory integration characteristics based on critical time delay for distinct perception of echo	Yasuhiko Tahara Hiroshi Sato Shuichi Nishitani	14
A study on clatter noise caused by degradation of road function for cracks and wheel tracks	Toshitada Sakai Tatsuhiro Nakamura	63
Focused sound beams by an elliptic surface lens	Masahiko Akiyama Hiroshi Uchiyama Tomoo Kamakura	71

**Short Note**

Evaluation of aircraft noise	Juichi Igarashi	24
------------------------------	-----------------	----

**Feature**

Foreword to the special issue on recent advances in room acoustics	Masayuki Morimoto	27
Panel discussion “Recent development in room acoustical design practice,” RADS2004	Keiji Oguchi	29
A prospective view of computational room acoustics	Toru Otsuru	33
Analysis and evaluation methodology on acoustic scattering performance of architectural surfaces	Tetsuya Sakuma	39
Perspective view of visualization and auralization techniques for room acoustics	Shinichi Sakamoto	45
A note on the measurements of physical measures for room acoustics evaluation: Current issues and perspective	Toshiki Hanyu Kimihiro Sakagami Shinichi Sakamoto	50

**Reviews**

The evaluation of the speech interface	Yasushi Ishikawa Kumiko Sawada Emiko Kido	79
Anthropo-morphic conversational robot: Multimodal human interface with para-linguistic information expressing/understanding abilities	Tetsunori Kobayashi Shinya Fujie Yosuke Matsusaka Katsuhiko Shirai	85
Humanoid talking robot: Talking robot with mechanical vocal cords and articulators	Masaaki Honda Kazuhumi Nishikawa Atsuo Takanishi Sadao Hiroya Takemi Mochida	91
Okinawa music: Sansin and Okinawa popular music	Junichi Yamazato	97
